To Whom It May Concern

I first drove for Meritus in 2006 in Formula BMW Asia. Meritus provided a fantastic service throughout the championship. From the outset it was very clear they were a team set on winning.

It was my first year in single seaters. Throughout the season I learnt from Firhat Mokzanhai the skills required to win the championship. He provided world class driver coaching and data acquisition which out class any top European team. The attention to detail and support package I received as a driver at Meritus out classes any other team I have driven for.

The whole time I was at Meritus, Peter Thompson went to every length to make sure the driver's sponsors had the best exposure possible. Meritus knows how to look after sponsors. The media and marketing package put in place by Meritus is the best I have seen.

For a driver aiming to get to Formula 1 Meritus is the team to be with. They have all the stepping stones in place and skills required to get to Formula 1 with Formula BMW, V6 Asia Series and GP2 Asia.
