Dear Mr Ecclestone

The Asian Championship Team and GP2 Europe Application

I confirm that I have known Peter Thompson of the championship winning Meritus team for the past 10 years. Meritus has help to create and finance many of today's Asian racing hero's including Indian Narain Kartheyhan (Jordan F1), Takuma Sato (Honda F1) and more recently Ho Pin Tung and our own Chinese Star Marchy Lee.

Meritus is philanthropic entrepreneur and leader in the development of Asian motorsport, seeking out sponsors to support the career development for our young drivers.

The Asian media are big supporters of Mertius and in particular the team's successful adaptation into GP2 Asia, the Asia F1 development series. I am not surprised as Peter always give 100% to his drivers.

Peter is famous here in Hong Kong for his effort to converted the old HK Kai Tak airport buildings into an indoor motorsport park before he sold it to Octagan.

Meritus is a premium brand in Asia and is hard working promoter of Asian motorsport. On behalf of my FIA Asian Zone office I recommend and would like to ask for your support to Meritus' GP2 Europe application.

Yours sincerely
